

December 10, 1917.

Messrs. Kracke & Jorgenson,
Petersburg, Alaska.

Gentlemen:

Your report of fishery operations in Alaska during the season of 1917 has been received. It is noted that you leased the plant. Although the plant is not owned by your company, it is necessary for the Bureau to know the value of it. It is desired also that you state the quantity of each species of fish purchased, from whom obtained, and if possible the localities where they were taken. Give also the amount of money paid for fish, and the number and nationality of the men engaged if you can. Kindly forward this information at your early convenience.

Very truly yours,

H.M. Smith.

Commissioner.
